SOURCE OF GREAT WEALTH

Has Been a Good Year for Lambs and Wool-Will be a Record-breaker in Both.

The enumeration of live stock in Utah is rapidly drawing to a close and stockmen are anxiously awaiting the result of the official figures. Of course it would be very interesting information, but it is not definitely or officially obtainable, One man, however, who has given much more than ordinary attention to the subject, said this morning that he could forecast with reasonable accuracy the number of sheep in the State. He is known to be conservative in his calculations and places the number at over 4,000,000. He would not attempt to give the exact number, but from his own observation was certain the 4,000,000 mark

would be passed. This proves that the sheep industry in Utah is making substantial strides and that a great deal of money is tied up in The annual revenue from it is constantly assuming larger proportions and this year will prove a record breaker in both the wool and lamb crops.

WOOL.

The Idaho Woolgrowers' association hrough its president, John McMillan, has made arrangements for sales days at Caldwell, Mountainhome, Boise and Shoshone. The dates are as follows;

Caldwell, July 14; Boise, July 16; Mountainhome, July 18; Shoshone, July 30. Dates for sales at other points will be arranged later. The dates of these sales were fixed at such a late date in that the growers and buyers might have the benefit of the next London auction, which will occur in the early part of July. It is expected that rowers having wool for sale will be on hand at the places designated on the days named and that buyers will also be in attendance. Sample sacks of wool will be opened and examined, and buyers will make sealed bids. The grower will have the right to reject all bids. These sales days will determine the policy of the growers. If they bring producers and growers together, the clip will begin to change hands. If not, many growers will ship on consignment and others will store and await developments. It is thought the two sides will come together and do There is only a cent or a cent and a half between them now, and this is likely to be wiped out before the sales days.-Boise Statesman.

The wool busines in Carbon county about over, and the wool warehouse ill soon close, says the Carbon Coun-Journal. Shearing has been over with for some time, and the shearers have all left for the north, where the season is later. Wool has been coming in from the south very slowly, especial ly the clip of the Geddes Sheep company, the cause being a strike among the teamsters. The company offered to pay 40 cents a hundred, but the strikers wanted 50 cents, and not until there were 100 sacks strewn along the road, which the haulers dumped off their wagons, did the company agree to pay them their price. Wool which was loaded at the pens on the 18th of May did not get here until Monday last. The Geddes Sheep company now have 521 sacks in the warehouse and 200 at the shearing pens, but with 20 teams hauling it will be only a short time before the whole clip will be here ready for sale. The sacks average about 300 pounds each, which makes a total of 216,200 pounds in their clip. The clip belonging to the Rawlinslive Stock company and Edwards & Roberts are the only two remaining clips in the wool warehouse besides the Geddes Sheep company's, which consists of 399 sacks and weight about 119,000 pounds. The owners of these lips are holding them in the hope that they will secure a better market than has yet been experienced. The amount of wool already secured shipped by the Rawlins Wool Warehouse and Storage company is to exceed 1,300,000 pounds, or 65 carloads, Franklin O'Meria received the high st price for his clip, which consisted of 10,000 pounds, than any wool sold n the warehouse under sealed bids. The price was 161/2 cents per pound. The lowest price was 1314 cents, but the average price was 15% cents per

It is now estimated that the wool shipments from Casper this season will exceed 5,250,000 pounds. amount 3,000,000 has been shipped far this season. It is understood by he buyers and growers alike that the ool this season has been moved very slowly, but the books at the Lander Transportation company warehouse how that up to last Saturday within ight cars as much wool had been shiped from Casper this season as there had been up to the same day last year, C. FATALITY AT STOCKTON.

Foster Mills is Overcome by Gas in the Honerine Mine.

[SPECIAL TO THE "NEWS."] Stockton, June 27.-Foster Mills of Rush Valley was killed in an accident that occurred in the Honerine mine at this place yesterday afternoon. Mr. Mills was working in the bottom shaft, and was just in the act of shooting a round of holes when he was almost overcome with gas. He climbed up the ladder, but when he was about fifteen feet from the mouth of the tunnel, he fell to the ground in an unconscious condition. Heroic efforts were made to revive him, but they were futile.

Mills was 28 years of age, and leaves a wife and two children. The inquest was held here today, the verdict being that he was asphixiated.

SENATOR DUBOIS.

Stops Off at Salt Lake on His Way to Kansas City.

Senator Fred T. Dubois, of Idaho, arrived here from Blackfoot last night on his way to the National Democratic convention at Kansas City. The senator talked of matters political and predicted a victory in November for Mr. Bryan. Speaking of Idaho he said: 'I have been all over the State within the past six weeks and am safe in stating that the gold standard Repubican party will be beaten by a larger

majority this fall than it was in '96 and Idaho is a bimetallic State, and there is no disposition on the part of the people to abandon the fight for their principles. Our fight in the State will not be a fight of allies against each other, nor will it be a contest over local issues. I look for the largest and most harmonious convention the Populista ever held, while the Silver Republicans were never in better condition and will have a much stronger convention than in '98. The trouble among the Democrats will be speedily adjusted, as they are practically united and will co-operate heartily with the Silver Republicans and Populists.

Senator Dubois has been appointed chairman of the executive committee of the Silver Republican National party. In speaking in regard to the work that had been accomplished, he stated that the Silver Republicans generally throughout the middle west were organizing in great shape, and that in Indiana alone there were over 35,000 who had flocked to the standard, with nore being added every day. Towne, he said, was a strong favorite for Vice President, "a man of great ability, perfect integrity and one who is particularly strong in the middle west."

REPORTED ABDUCTION. Another Case of Alleged Kidnapping in Salt Lake.

It appears that two men during the afternoon attempted to abduct Lucile Williams, the '3-year-old daughter of Nugent Williams who lives at No. 773 west North Temple street. The men had a buggy and it is said attempted to pick up the child and drive away with her. The police belittle the story although a couple of strange men were seen in the vicinity

AN ARTICLE OF VALUE

For the Busy Housewife.

It is economy for a lady to use this Calculating Pencil. Not a week passes during which she would not save money by avoiding mistakes. It is true the amounts lost through wrong change are not large. But they amount to a good! sum during the year. They are much more frequent than you would think. Here is what happened to a lady in a department store. She bought seven yards of goods at 15 cents, and nine yards at 19 cents. The clerk charged her \$1.15 and \$1.71. The lady checked off her bill with her Calculating Pencil and found that seven yards at 15 cents is \$1,05 instead of \$1.15, thereby saving cents. The clerk, who did not intend to cheat, bought a pencil so as to avoid future mistakes. Ladies can buy this instructive educational device at the "News" office, or any of its agencies, for 25 cents.
